

QUESTIONNAIRE DESIGN WORKSHOP

 MAY 8, 2024, 10:00 AM TO 5:00 PM

 INDIAN MERCHANT CHAMBERS (IMC)

Introduction

Many organizations invest heavily in projects and processes for various departments to deliver quality products and services. It becomes essential to gather feedback on various aspects of those projects and services to get a clear view about their success. Questionnaires become an important tool to get feedback, thus helping the organization to improve the processes further.

Designing good questionnaires is the key to better decision-making, improve productivity and increase effectiveness. Questionnaires give an insight into the market, customers, stakeholders, and employees.

The workshop is designed to equip individuals to develop questionnaires for their respective organizations so that they can gather quality feedback from all stakeholders.

Objectives

The workshop aims to develop competencies in professionals to design efficient questionnaires.

In the course of the workshop participants will

- design two questionnaires
- use google forms and SurveyMonkey to design questionnaires and collect responses

Methodology

The workshop methodology capitalizes on experience of the trainer to make the workshop activity driven with activities ranging from case studies, games and role plays to imbibe the practical aspects of a questionnaire. Participants will get the opportunity to develop two questionnaires for their respective organizations.

Content

The world of questionnaire design

- Why use, when to use, where to use and how to use questionnaires
- What happens when you ask someone a question

Mechanics

- Process of designing a questionnaire
- Types of questions
- Variables and attributes
